## Party Down in Boogie Town

By Matt Danner

Join legendary superstar DJs, Bebop and Jam, as they host the greatest kid's concert ever! They'll introduce a cast of colorful characters with bangin' original songs in a full-on dance party that's like Coachella for kids. While animated music videos play on a big screen backdrop, costumed characters, sick dancers, and puppets will fill the stage and encourage kids to share in the fun. Each song introduces strong, healthy themes that will inspire kids to be their best selves while they dance their buns off. Even parents won't be able to stop themselves from feeling the beat and groovin' to the tunes.
